2nd INTERNATIONAL CONFERENCE ON RECENT ADVANCES IN MATHEMATICS AND ITS APPLICATIONS (ICRAMA-2027)

3 – 5 FEBRUARY 2027 (WEDNESDAY – FRIDAY)

AIM OF THE CONFERENCE

The primal aim is to bring the researchers working in different fields of Mathematical Sciences from all over the world so that they can interact and exchange the new trends and advances in recent researches in other fields of Mathematical Sciences. Almost all scientific and technological fields are somehow connected. This conference will provide an essential environment of future collaborative works between different Scientific and Technological fields. Another major objective is to provide a platform to the young and vibrant researchers where they can present and discuss their works in front of renowned scientists and academicians working in various fields of Mathematical Sciences. It also inspires lasting global collaboration.
