ABOUT THE WORKSHOP

This three-day workshop is designed to enhance the research and publication skills of faculty members, and to strengthen proposal development for external funding. Through expert sessions, hands-on exercises and parallel tracks for Sciences and other Faculties, the workshop will provide practical insights and tools to improve research output and competitiveness in national and international funding and publication avenues.

PEOPLE
A BRIGHTER TOMORROW

OBJECTIVES

- 1 To familiarise faculty members with good practices in research, academic writing and scholarly publication.
- 2 To build capacity for preparing competitive proposals for external funding agencies.
- 3 To acquaint participants with current funding opportunities and with examples of funded and ongoing work.
- 4 To improve the quality of manuscripts submitted to indexed, high-impact journals.
- 5 To create a cross-Faculty peer-learning environment through parallel science and other-faculty tracks.
- 6 To have every participant carry away a draft paper or project proposal for submission at the valedictory session.
